Overview

The Gold Standard in Real-Time Sports Stats

Sportradar's team of data-entry experts process play-by-play information for packaging and delivery using new technology that results in the fastest updates in the industry. And because our clients demand depth, no statistic is too small. We focus on:

Accuracy. From live events to post-round cleanup, official and final, we maintain the highest standard in data accuracy.

Simplicity. We deliver your sports data feed to meet customer specifications, in any industry-standard format; our flexibility makes your transition fast and seamless.

Speed. We offer real-time delivery of data using highly optimized publishing techniques.

Service. We approach every client relationship as an opportunity for a long-term partnership, and will work tirelessly for you from Day 1.

Soccer Statistics Feeds

We package our comprehensive stats collection into the following feeds, each focused on serving specific information needs:

Daily Boxscore – provides match information and scoring, including team statistics, for all matches played on a given day

Daily Schedule – provides scheduled match information, including category, tournament, and league information, for all matches played on a given day

Daily Summary – provides match information and scoring, including team and player statistics, for all matches played on a given day

Match Boxscore - provides match information and scoring, including team statistics

Match Summary – provides match information and scoring, including team and player statistics, lineups, and play by play

Player Profile – provides team and player information including a player's statistics for each category, tournament, or league team

Player Rankings – provides player rankings for goals, assists, points, cards, and own goals

Schedule – provides scheduled match information, for all categories, tournaments, and leagues. Feed maintains 6 weeks of match history.

Standings – provides scheduled match information for all categories, tournaments, and leagues

Team Hierarchy – category, tournament, league, and team identification and association information

Team Profile – team information and statistics, including player roster information
